NNFL

Q crisp v/s fuzzy set

Q) Properties of fuzzy sets. — Theory

Q) Two sets given. Calculate $A \cup B$, $A \cap B$, A'/B'
answer will be in fuzzy set form.

Q) Cartesian Product

Q) Handwritten Digit Recognition.
Process identification

Q) All defuzzification methods (Problem or theory)
1) maxima   2) centroid   3) weighted avg

Q) Auto associative, Hetro associative [Numerical]

Q) Training & Testing algorithm of hopfield network

Q) what is associative memory in
